[PDF] Phenom 300 flight manual: veteransskiarea

Regarding the pilot training manual: It was created by some guys at CAE some time ago but discontinued. It is outdated by today which means dont plead on it as a source - however: The EMB books are lacking in depth in some parts and the PTM gives you maybe an answer to help understand things (that was also the idea of the CAE guys back then IIRC).

The Phenom 300 is certified under Part 23 of the FAR's which allows for single pilot operations. You have the option to take the checkride to single pilot standards or crew. If crew is elected, "SIC Required" will be added to the EMB-505 Type Rating under Limitations on your pilot certificate.

Phenom 300: EMB-505 Type Rating - Florida Flight Center

Embraer began designing the Phenom 300 after finding that potential customers of the Phenom 100 would also like a bigger aircraft. It was a new design with the aim of allowing operation to smaller airports such as London City and Telluride Regional Airport.. It first flew on 29 April 2008, and received its type certification on 3 December 2009. On 29 December 2009 Embraer delivered the first ...
