### The Human Animal: Personal Identity Without Psychology by ...

Psychological accounts of personal identity lead to grave metaphysical problems, and the arguments for them are inconclusive. The book argues that we are animals, and thus have the purely biological identity conditions of animals. Keywords: animalism, animals, death, metaphysics, personal identity, psychological continuity, self.

### Human Animal: Personal Identity Without Psychology ...

Everything we do has an inborn, genetic basis, and all our activities show similarities to those of other species. Man is unique, though, in the way in which he has built on these animal patterns, exaggerating and elaborating them to an astounding degree or suppressing them with damaging consequences. Morris sets out to show that, despite our inclination to believe otherwise, human behaviour ...
