FAQs for Medicolegal Death Investigators | CDC

A Medicolegal Death Investigator/Technician, also sometimes referred to as a Forensic Investigator/Technician, is a trained individual who responds to the scene of death for the purpose of performing an investigation into why the person died and collecting any evidence directly related to death (such as prescription medications).

What is a Medicolegal Death Investigator/Technician?

The medicolegal death investigator is not responsible for crime scene investigation - that duty falls to local or federal law enforcement agents. But at a crime scene, or any other location of unexpected death, the medicolegal death investigator works with law enforcement and is responsible for the dead person. He or she performs limited investigations that directly involve the body of the deceased, then determines the extent to which further investigation is necessary.
