Wärtsilä Spare Parts - Wartsila.com

The 215 MW Flexicycle plant was installed in 2013, and is powered by 12 Wärtsilä 50DF dual-fuel engines. The engines have been liquid-optimised until now as only heavy fuel oil (HFO) has been available. As natural gas is soon to become available, and with the execution of this conversion project, the plant will be re-commissioned to run on gas.
